CURES GUARANTEED OR NO PAY REQUIRED

IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED

The above rules, established Dr. J. C. Young in 1850, d which have done so much secure the reputation of this stitute, are still adhered to, ording those in need of edical aid, the certainty of re and the utmost confidence. There is nothing of so great portance to the sick as to now where to find a physi-an whose skill and humanity ve assurance of proper and licate treatment. The Doc-r would respectfully call the tention of those of both sexes ho are suffering or in trouble the invariable success that s marked the career of the stitute in the seventeen years its existence.

It is unnecessary in this con-ction to enumerate all the mplaints treated at the In-tute, but the Doctor feels it s duty to call especial atten-on to that terrible scourge, SEMINAL WEAKNESS, That is sapping with its in-sidious the very life of its [illegible] in the treatment and [illegible] the Institute has [illegible] so enviable a reputa-

SEHOME Aug 2 —Coleman Stratton and others who left this place two weeks ago by way of the Lummi river to make the tour of Mt Baker returned on the 22d inst The party were successful in their undertaking and reached the summit They report two summits or peaks so nearly of a height as to present no difference to the eye On these two peaks they planted the Stars and Stripes at the same time naming them respectively Grant and Sherman Two lower peaks were also named Lincoln and Colfax The party satisfied themselves of the existence of a crater the smoke from which caused nausea and vomiting A full report will soon be published

Grand Army of the Republic

The doors of Congress Hall were thrown open to the public last evening to hear the address given by Comrade W H Aiken to the State Convention of the Grand Army of the Republic which is now in session in this city The hall was densely crowded by citizens the stage being occupied by members of the Order Captain W Gouverneur Morris of Napa explained the object of the meeting after which the Choral Four sang Unfurl the glorious banner, and the brass band in the rear of the stage played While we were marching through Georgia Captain Morris then stepped forward and introduced to the members and audience Comrade W H Aiken late a soldier in the Army of the Cumberland and paid a very pretty tribute to the bravery and patriotism of the army which stopped and defeated Hood at Nashville

Mr Aiken said that it afforded him pleasure to greet them with a hearty soldier s welcome on this occasion That the Grand Army of the Republic of which he had the honor to be a comrade, was a social and benevolent association of soldiers who but recently fought in the Union army and that it commanded the respect and sympathy of all liberty loving and loyal citizens He said the Grand Army was a natural result of the late war that it was organized in the cause of common humanity and that it had no connection with any political party or creed That when parties should pass away with their platforms, and beliefs be known only in the past, the Grand Army would be the same then as now the guardian of its members, and of the highest good of the whole country It could not be expected that a benevolent organization like ours should take any part in politics but as citizens they would watch with a zealous care the principles for which they fought He then reviewed the two great principles, progress and liberty, which had made us a great nation He said, that after we became a free people, and had made such rapid advancement in the development of free institutions "Mexico and South America rose from their state of semi barbarism, Ireland tried hard to cast off her disgraceful yoke of tyranny, Poland fought her chains and died in the effort, France sank in a sea of blood and rose again" He said that by these convulsions of the people for liberty and progress the thrones of Europe were rocked to their base, and liberty must soon take the place of tyranny and oppression. Kings and rulers had by force of arms tried to root out the principles of progress and human liberty from the breasts of their subjects but all of their efforts were fruitless He said these demonstrations proved to the world that reform could not be checked He then alluded to the great sacrifice that had been made to preserve our country, the brightest example of humane and christian civilization That three hundred thousand graves of fallen comrades in the South showed how faithful we had been to preserve these principles He spoke of the many happy homes where mourning and sorrow had been brought to their door, because of dear ones slain on the battle field that the principles of progress and liberty might live. In remembrance of these sacrifices in common made and triumph shared the Grand Army of the Republic cherished their memories and attended to their widows and orphans left as a legacy to the country their heart felt sympathies and substantial aid He then referred to the articles sent and the relief rendered to sick and wounded soldiers by the loyal people of North They had contributed over seventy [illegible] for the soldiers' comfort out of their private purses He said the much of this aid came from the loyal people of California and that it encouraged and strengthened [illegible] to fight on to victory or death and had induced many soldiers to come to this noble State after the war closed He said that no subject had received so much attention before the Convention now assembled in the city as our sacred duty to the dead soldiers who lie buried around and about Lone Mountain We deeply regret that our late National tribute of strewing flowers upon the graves of the loyal dead had to be paid to barren sandy graves scattered far and wide showing no signs of love and gratitude and few tokens of even recognition He said they had died as strangers in a strange land and had been buried as soldiers on a battle field The Grand Army had unanimously decided to honor the loyal dead by purchasing a soldiers' cemetery and to place the remains of soldiers buried near this city in it With their best and richest gifts they would make it worthy of the dead who will be buried there and worthy of the State of California We bring to this sacred work willing hands kind hearts and firm resolves

The band played The Battle Cry of Freedom after which the Choral Four sang Union and Liberty Forever Some person in the audience proposed three cheers for the soldiers which were given with a will the crowd rising to their feet the ladies waving their handkerchiefs and the gentlemen swinging their hats The audience was then dismissed the band playing a medley of National airs —*S F Times Aug* 12

EXTINGUISHER
PORTABLE
SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT the extinguishing of Fires in a more [illegible] manner than has hitherto been discovered

The advantages to be derived from the use of the EXTINGUISHER are as follows

Every fire begins on a small scale, and its rapid and uncontrollable increase is owing to the fact that at the time of its commencement (when every moment's delay in checking it is of the utmost importance) no means are ready at hand

The EXTINGUISHER is the only Engine that fills this requirement

It is always ready for use though standing [illegible] for years

It puts out Fire instantly

It saves the great deluge of water now used for this purpose

It is as effective in the hands of a Boy as the most experienced Fireman

It is portable, and as [illegible] of water

It possesses within itself the power of [illegible] and as effective as a Steam Engine

It is the only known invention that will put out Fires from Kerosene, Tar Naphtha, and [illegible] materials now in [illegible] use

EDITORIAL CORRESPONDENCE

EMPIRE CITY Coos Bay Aug 17 1868

THE COAST COUNTIES OF OREGON

Along the coast of Oregon South of the Columbia river there are several inlets from the ocean which afford a safe entrance for a small class of vessels These points are continually growing in importance Each year their commerce is increasing, and as the State continues to develop and to grow in prosperity these places along the coast will become better known, and their importance will be more generally perceived and acknowledged The natural resources of the coast counties of Oregon are so great that they must one day secure a much wider recognition than they have yet attained

COOS BAY

At Portland little is known of Coos Bay The knowledge which a large portion of the people of Oregon possess of this place is as small and their intercourse with it is as limited as if it were situated on the farther shore of the Pacific Few persons from Portland visit this quarter of the State and few from this place have sought to establish an intercourse with other parts of Oregon Coos Bay has and has always had its principal business relations with San Francisco and this accounts for the fact of its being regarded with so little interest by the balance of our State

But the people of Oregon ought to understand that Coos Bay is a place of no mean importance, that it has great resources, that it must continue to grow in wealth and that in the natural progress of things it must attain a position of note and prominence in the commerce of the Pacific coast Already a large amount of business is done here and it is rapidly increasing Indeed it may be said with perfect certainty that at no other place in Oregon is so much business done in proportion to the population as at Coos Bay True, the population is not large but during the last two years it has been doubled,—more than doubling the business of the county Among the people here, all is activity, nobody lives in this locality except to work It is no place for idleness, and the object of all seems to be to make the most of every opportunity

This activity is mainly due to the enterprise of the men in control of the lumber and coal business here. Where business is carried on systematically, every man connected with it must be alive and full of energy In this way the best men get positions and hold them, and the drones, as in the Roman poet's simile, are crowded out of the hive In a community of workers men are thus stimulated to activity both by interest and example

Coos Bay is a safe and commodious harbor for small vessels The entrance is good, and accidents at the bar are extremely rare Vessels of 400 or 500 tons may safely enter and ships with a carrying capacity of 800 to 1000 tons could be built which could enter and depart with full freights without difficulty. At the lowest tides, the soundings show twelve feet water on the bar, and at high water a depth of eighteen or twenty feet is found Inside the bar for a distance of a few miles, the bay has sufficient depth for any vessels In form, the bay is very irregular It enters the land from the ocean in a north east direction, holding this course for a distance of about ten miles, with a width of one to two miles It then turns abruptly towards the South, nearly doubling upon itself; and in the course of a few miles it divides into several branches. One of the principal of these is the entrance of Coos river; another extends far south toward the Coquille, penetrating within a mile and a half of one of the tide channels connected with that stream, and the third or more westerly branch, being that on which the coal mines are situated, flows around to within a few miles of the bar at the mouth of the bay Thus the bay forms a peninsula, it being no great distance across the neck of land from the head of the coal bank slough to the entrance of the bay from the ocean

Besides the principal branches into which the bay is divided, there is an almost endless number of small tide sloughs which are nearly or quite dry at low water, but which at high water afford an easy passage for small boats and rafts The whole region about the bay is cut up by these tide channels, which ramify and permeate the surrounding country in every direction making a vast shore line for lumbermen and affording every facility for reaching the timber with which the region about the bay abounds At the junction of all its principal branches or arms, the bay is probably three miles in width and the depth of water at low tide for a long distance up these branches is sufficient for any vessel that can cross the bar. From the mouth of the bay to the head of tide water, the distance following the sinuosities of the channel probably exceeds forty miles.

LUMBER INTERESTS OF THE BAY

There are three saw mills in operation on the bay One is located at Empire City, and is owned by H H Luce This mill saws from 15 000 to 20,000 feet per day It also manufactures large quantities of lath, broom handles, etc. The next mill is that at North Bend five miles above Empire City The proprietor is A M Simpson who resides mostly at San Francisco The North Bend mill is superintended by Capt Robert Simpson, who keeps everything in excellent condition The entire premises mill yard houses and fences, present an appearance of order which is not often witnessed about such establishments This mill saws about 25 000 feet per day The third mill is situated at a place called Marshfield four miles above North Bend It was erected last year its proprietor is John Pershbaker who lives on the bay The average amount of lumber made by this mill each day is about 20 000 feet None of the mills run more than twelve hours a day The daily manufacture of lumber on the bay is from 60 000 to 70 000 feet and the yearly export is from fifteen to eighteen millions The average value of lumber on the bay is about ten dollars per thousand Freight to San Francisco is seven dollars per thousand, and towage on the bay about one dollar more. There are some rare varieties of timber in this locality the chief of which is a white cedar that is in great demand in San Francisco This cedar [illegible] is not found north of the Umpqua nor south of Port Orford It is [illegible] and is the best finishing lumber on this coast At San Francisco it commands fifty dollars per thousand by the cargo and sixty dollars in small quantities This timber is abundant here When [illegible] it grows to [illegible] firs [illegible] which [illegible] height of 150 feet or more Large quantities of this white cedar would [illegible] San Francisco [illegible] minute [illegible] matches It is said that the match factories of that place are almost wholly supplied with this wood from Coos Bay So also the [illegible] factories of that city use white cedar [illegible] which [illegible]

THE COAL MINES

The coal fields of this region are extensive and the supply is apparently inexhaustible Every stranger visiting the coal banks on this bay is astonished at their extent their accessibility and the ease with which they may be worked From Empire City the distance by the bay to the coal mines is about twelve miles though it is only about six by land The beds of coal are opened at two places about a mile apart The lower mine is now owned by a San Francisco company which is represented here by John Pershbaker the proprietor of the Marshfield mill This company is called the "Eastport Coal Mining Company" its capital stock is fixed at $200 000 divided into shares of $500 each The area of coal lands in possession of the company is stated to be 640 acres This mine has been opened and practically worked for about ten years An outlay of upwards of $60 000 has been incurred in the construction of the necessary buildings railways bridges etc The mine is opened by a tunnel 700 feet in length Numerous chambers have been constructed leading from the main tunnel so that a large number of men may now be employed in the mine and almost any required amount of coal may be produced A railway nearly a mile in length leads from the mine to the water and the loaded cars, carried down the grade by their own weight discharge the coal without further handling into the hold of the vessel waiting to receive it Vessels are loaded at the rate of 75 to 100 tons a day

The other mine is wholly in Oregon hands Its proprietors are Messrs Flanagan & Mann two highly estimable and enterprising gentlemen, who have resided for many years on the bay Their mine is opened in such a manner that they can take out any quantity of coal Vessels cannot go up the tide slough as far as their mine, and at present large lighters are used to carry the coal down to deep water and when this enterprise is completed their arrangements for supplying coal will be perfect Their mine is now opened in such a manner that they can easily take out 100 tons a day, and they will soon have it in such a condition that the daily product may be increased to ten times that amount No mine could be more favorably situated for working The coal lies in three distinct strata having an aggregate thickness of about eight feet Between the strata are seams of soft sand stone from four to six inches thick, which the pick easily removes One man will mine from three to five tons per day The coal beds dip towards the west at an angle of fifteen degrees The basin in which the materials forming the coal were deposited is without doubt an extensive one Twenty miles distant, on the Coquille mine, the same deposit "crops out," and the vein there is quite as thick as it is on this bay The greatest extent of these coal fields appears to be from north to south Their width from east to west is yet unknown By the upheaval of the land the coal measures were, of course fractured in many places and tilted very much out of their original position, and the first attempts to work them were attended with much difficulty and loss as the proper course was not taken to reach the unbroken vein

Since the first of April last the "Eastport Coal Company" have shipped to San Francisco about 3,000 tons During the past year Flanagan & Mann have shipped about 6,000 tons The amount shipped from both mines is constantly increasing and at the present rate will not be less than 18 000 tons a year Shippments of coal from this bay have doubled during the last two or three years, and no doubt will grow steadily larger in future The coal at the mine is worth three dollars a ton In San Francisco it is worth nine dollars It is believed that freight on coal could be greatly cheapened by carrying it in a different class of vessels Small sailing vessels are the kind now used carrying from 200 to 300 tons Their trips are uncertain and almost always slow They are frequently twenty five days from San Francisco to this bay By using steam propellers instead of these sailing vessels twice the number of trips might be made in a year Fuel would cost but a mere trifle where coal is so abundant and the business might be carried on both with expedition and certainty

It is known that Coos Bay coal is not of the best quality but it takes high rank among the cheap coals of this coast and indeed is preferred to most of them It is excellent for making steam, and is largely used in San Francisco for domestic purposes being free from offensive gases and much superior to the Mount Diablo coal

SHIPPING OF COOS BAY

From what has been said it will be perceived that the commerce of this bay is no small part of the commerce of Oregon During the past year one hundred and sixty cargoes have been shipped from here and the number is sure to be increased the present year The vessels are small it is true but the aggregate of their cargoes makes no insignificant item Three vessels have entered the bay since my arrival here four days ago two have sailed and four or five are now receiving or ready to receive cargoes for San Francisco

SHIP BUILDING

Considerable numbers of small vessels are built here for the coasting trade Several have been built or are building this summer These vessels are from 100 to 300 tons burthens No doubt a larger class of vessels will be built here after a while The bark *Occident* and perhaps other vessels built on this bay have visited Portland Several which have been built here are owned by A M Simpson and employed by him in freighting lumber to San Francisco His fleet now consists of eight or ten vessels and he is building more every year

AGRICULTURE

About Coos Bay little farming is done Most of the land is poor On Coos river there is a narrow valley several miles in length on which some fine farms have been opened The most extensive body of good land in the county is on the Coquille This stream flows through a very fertile valley thirty or forty miles long and from three to five miles wide all of which is occupied by an agricultural population The tide sets up the Coquille for fifty or sixty miles but the entrance from the [illegible] is difficult for vessels and by many it is asserted to be impossible But a small part of the products of agriculture consumed on the bay are grown here almost everything [illegible] from California

[illegible] WAGES [illegible]

[illegible] is supplied with all [illegible] employment The wages paid are from fifty to seventy five dollars per month The logging camps furnish employment for a large number of men and every year there is a demand for an additional force of laborers

GOLD MINING IN COOS COUNTY

Miners are still at work in the mines about Randolph the scene of the great gold excitement fifteen years ago There is [illegible] rich [illegible] in some of the old beaches about that place though the number of miners employed is not large Some mining is also being done on the upper waters of the Coquille A great deal of gold was once mined in this county but the product now is comparatively small

GENERAL OBSERVATIONS

The wealth of this place is in its timber and coal and these it possesses in such quantities as to make it [illegible] that Coos Bay must inevitably be a place of commercial importance At present it is detached from the rest of Oregon but means of intercourse may be found hereafter It is expected that a good road will shortly be finished from Roseburg by way of the Coquille to this bay a work which would be of great utility The difficulty of reaching here except by sea is a great drawback to the county and one which every citizen in the county should labor to remove An effort is being made to have Congress declare Coos Bay a port of entry and a bill to that effect has passed the Senate This measure is both favored and opposed here some declaring that it is unnecessary and others taking the ground that it is demanded by the interests of the county and the State

S

The Circumlocution Office on Sanitary Matters

When the ship *Jeanne [illegible]* with a crowd of Chinese immigrants on board was about to arrive at this port, Mayor Boyd on the rumor that the passengers had among them infectious diseases, addressed a note to the Collector at Astoria for information in relation to the matter This was promptly and commendably done In reply the Collector informed Mayor Boyd that the passengers did not appear to have any infectious disease Notwithstanding this the Mayor as we are informed advised as a precautionary measure, that the coolies be landed below the city and they were so landed This too was commendable and undoubtedly the right thing to have been done We are not however aware that this action was taken under the authority of any ordinance but suppose that the Mayor acted upon his generally implied authority to look out for the sanitary condition of the city Be this as it may we believe that he did no more than was right and proper

We have now however, to consider the city authorities in quite a different role It had been long known that the small pox was prevailing in San Francisco it was expected that it would appear here, the authorities had their attention frequently called to the propriety of taking precautions against its spread a case finally did appear, the patient was taken privately from a comparatively obscure neighborhood to a house on Front street in one of the busiest and most densely peopled portions of the city, and remains there yet notwithstanding the protests of the owner of the house and of all the neighbors Scarcely a place in the city better calculated to spread the disease could have been selected The Mayor was called upon the next day by the owner of the house thus converted without her knowledge or consent, into a pest house and was requested to have the patient removed The Mayor disclaimed having power to do anything and advised the lady if she wanted redress to employ a lawyer and sue for damages She did employ an attorney who called the same evening, upon the Mayor The Mayor was about to retire or had retired The attorney was persistent for an audience Then the Mayor appeared in his role of Barnacle Junior of the Circumlocution Office, and urged that it was late past business hours Late or early the attorney wanted to know what could be done When a persistent searcher after information applied to Barnacle Junior with "I want to know" that particular magnate of the Circumlocution Office replied "Look here! upon my soul you mustn't come into the place saying you want to know you know," and Barnacle Junior ended by referring the man who wanted to know to Mr Wobbler of the Secretarial Department Mr Wobbler couldn't inform the man of the inquisitive turn and referred him to Mr Clive Barnacle No 4 of the Circumlocution Sages who upon learning from the man that he wanted to know airily advised him that in his opinion he had better not bother himself about it

The attorney got no satisfaction from our Mayor Barnacle Junior unless it were a satisfaction to him to see the Mayor read the notice he had succeeded in serving on him throw it down and turn upon his heel in the most approved Stiltstalking manner and retire leaving the attorney to whistle down the wind or go home as he might elect The Mayor could do nothing no authority The Marshal was notified next morning The Marshal could do nothing no authority The Circumlocution Office had most unmistakably solved the great problem of "How not to do it" the great problem in which is contained the whole science of government Nothing has been done and the small pox patient still inhabits the building on Front street while Daniel Doyce persecuting the public is referred right and left to this department and that department of the Circumlocution Office with full liberty to drop the inquiry of what can be done whenever Daniel Doyce the public shall get weary of pursuing it further

But seriously is there not authority for doing something? Has the ordinance No 123 providing for a small pox hospital and the removal to it of small pox patients, ever been repealed? If not what lack of authority is there and why is not the patient removed from the present public location to the outskirts of the city? Two years ago when Marshal Hoyt found a small pox patient in the city he proceeded at once to build a house and to remove the patient to it He had no trouble about finding authority and as well as we recollect the bills contracted were paid either by order of the Council or the judgment of the Circuit Court Marshal Hoyt however did not have a policy wherein seems to lie the difference between him and the present authorities The Circumlocution Office as we learn proceeds upon the theory that it is policy to permit the small pox patients to die comfortably at home That such a course may greatly spread the disease is not considered in the policy The little Barnacles and the Barnacle Juniors of the Circumlocution Office cannot see that such a trivial consideration can by any possibility affect the soundness of the policy Meantime let the Barnacles study "How not to do it" [illegible] the public wants to know——

Torture.—Who would endure the torture arising from Chills and Fever when it can be easily cured?

Who would endure sleepless nights burning fever and icy chills alternately when a remedy can be obtained for a trifle

Who would wander like an uncertain shadow never knowing what moment they may be prostrated?

Who would be a burden to himself and a burden to his friends who are worn out in administering to his wants

Who would live this life of agony when the great alterative and tonic

HOSTETTER'S STOMACH BITTERS

can be obtained at the nearest village? This long established and justly renowned medicine has never been known to fail in a single case and none but the foolish and weak would hesitate to procure it at once and save themselves from intense life long torture Prepared after a long experience and deep study it has received the encomiums of the most eminent physicians as well as of laymen from every part of the country To those who doubt its many virtues all we can say is try it and judge for yourselves

Every day letters pour in upon us testifying to its great efficacy in curing Fever and Ague Dyspepsia Languor Nervousness and Debility

Agricultural, etc.—We are in receipt of the Monthly Report of the Department of Agriculture for the months of May and June 1868. Among other matters of general interest it contains articles upon the condition of the crops, protection against wool buyers, special statistics of farm resources and products, wine growing in California, seed wheat for the Northwest, and the encouragement of silk culture. From it we learn that an increase in the acreage in wheat is observed in nearly every State. The reports of the condition of this crop for the month of June is very favorable. So also the reports concerning barley, oats and rye. In speaking of the rigorous rules adopted by several Wool Buyers' Associations, the Commissioner says: "It may be difficult to prevent altogether this injustice, but it is time that wool growers should, individually and by private understanding, unitedly and if necessary by direct vote of neighborhood meetings, refuse to sell under these rules. If they will thus take the trouble to unite and act in concert, not to fix arbitrary prices of wools, but to prevent gross injustice to themselves, buyers will quickly conform their views and pay prices in proportion to quality and condition." In the report there is very little from Oregon. Nothing from any counties except Columbia, Douglas, Lane and Multnomah. Now doubtless there are persons who are sufficiently posted in the resources and productions of the State in each county who could forward such statistics to the Department as might be of much benefit to the country by disseminating reliable information respecting it among the great number of people of the different States where the report of the Commissioner is circulated. Let some man in each county who can furnish the Department at Washington with reliable facts and figures concerning the resources and products, prospects and advantages of his respective county, and our State would certainly make a very favorable showing in the report, for her age and distance from the commercial center of the country. At some future time we will publish the questions upon which statistics and information are desired.

More about the Fire.—Owing to the lateness of the hour at which it occurred we were unable to give the full particulars of the disastrous fire night before last. Capt Ankeny's packing house and contents was valued at about $17,000. On this there was an insurance of $9,000 in the Pacific Insurance Company. A portion of the great quantity of hams will yet be worth something, as they are only scorched on the outside. Workmen were engaged yesterday in picking out from the rubbish those which are not entirely worthless, and hauling them to the auction house of A. B. Richardson, where they will be offered for sale. Mr J. W. Cook's loss in buildings is about $800. The proprietor of the Franklin House, Mr. [illegible] and lost $400. Total loss $18,200. It is firmly believed that the building was set on fire, as no one had been in it during the night and no fire had been used there for several months. We are informed that Messrs. Ladd & Tilton, agents of the Pacific Insurance Company, offer a reward of $1,000 for the arrest and conviction of the [illegible]—tiary.

Upper Valley.—From our exchanges south we clip [illegible]: There are fabulous reports of the richness of the [illegible] quartz mines, yet there has been no money taken out. A good pack trail is now open from Oakland to that place. Bohemia is situated about fifty (by way of the trail) from Oakland, in nearly a due east course. M[illegible] has been appointed Recorder for that district. [illegible] are busy harvesting and threshing, crops are heavy, hay and grain cheap. Daniel DeBoune is going to walk a rope stretched across the Willamette river at [illegible], on the 3d of October next. Sheriff Reams of [illegible] county lately caught a Chinaman in the act of [illegible] bogus gold dust. B. F. Dowell, Esq., of [illegible] was expected home last Sunday, from a [illegible] visit to the East.

Legislature.—J. F. McCoy, Esq., of this city, is preparing a table containing the following [illegible] the members of the next Legislature of the State of Oregon, viz: [illegible] occupation, nativity, post office [illegible] each year since 1862, politics before 1862, [illegible] number of years married if any, residence before [illegible] to Oregon, religious belief, etc., etc. In short, this table is an abstract of the lives of the [illegible] members, and will be prepared in such a manner as to be of much interest, as well as a very convenient table.

[illegible] Revs. Thos. Derrick and E. A. Russ, of the [illegible] Methodist Church, arrived in this city yesterday, from [illegible], en route for British Columbia, where they go to supply the church of which they [illegible] in that country. While they are [illegible] in our city they will preach at the Methodist [illegible] of Third and Taylor streets—Mr. Russ [illegible] and Mr. Derrick to-morrow (Thursday) [illegible]. These clergymen are both said to be able and [illegible], and all who can should attend.

[illegible] attached to Wainhard & Dellin [illegible] ran away yesterday, on Front street [illegible] as they passed by Washington [illegible] and we should think the lager was sufficiently [illegible] by the time they reached the end of the journey [illegible] being fearfully tumbled about [illegible] the night. We only observed them as they [illegible] and cannot tell whose they came [illegible].

[illegible] We [illegible] that a gentleman came up on the [illegible] from San Francisco, to make the [illegible] for a dramatic engagement in [illegible] Hall has been [illegible] and [illegible] to-day in fitting it up to accommodate the [illegible] shortly. The staging [illegible] be altered, and the whole interior of the [illegible] to the proper condition of [illegible].

[illegible] We have received the Premium List of the [illegible] Fair of the Agricultural, Horticultural and [illegible] Society of the Northern District of [illegible] to be held at Marysville, commencing [illegible] day of September and continuing six days. [illegible] liberal premiums on stock of all kinds [illegible] tions and manufactures.

[illegible] Hon. O. C. Hewitt, Chief Justice of [illegible] of the United States, for Washington [illegible] passenger on the John L. Stephens from [illegible]. He is on his way home at Olympia, W. T. [illegible] several months at Washington City. He is at present stopping at the [illegible] in this city.

[illegible] Case.—This case, which has attracted attention at Walla Walla for some [illegible] by Judge Wyche on the 17th inst. [illegible] Mrs. Parker a divorce, the owner [illegible] of [illegible] her [illegible] and orders the defendant [illegible].

[illegible] attention of the travelling public [illegible] of the North American [illegible] Company's splendid steamer Nebraska, in [illegible]. She will sail from San Francisco on the [illegible] month, and offers surpassing facilities for passengers.

[illegible] This steamer has been moving [illegible] lately. At last accounts, she had [illegible] by the California Central Railroad Company [illegible] between San Francisco and Vallejo in [illegible] from Sacramento.

[illegible] The boy who was arrested upon a [illegible] last week, was yesterday discharged [illegible]. Charles Lawrence was tried and [illegible] and battery. A fine of $5 and costs.

[illegible] who came on the Jeannie Alice [illegible] to starve, for they brought with [illegible] of their favorite food—rice. Most [illegible] to Tung Duck Chung.

[illegible] We are informed that Messrs [illegible] and Hayden & Co. of Portland and [illegible] of the St. Helens Mills have fixed the [illegible] at $15 00 per thousand.

[illegible] John L. Stephens arrived at this port yesterday morning. She brought several [illegible] fair freight. The Continental reached [illegible] on [illegible] last.

[illegible] were engaged yesterday in preparing [illegible] of Mr. H. Failing's new brick [illegible] on Oak street between Front and [illegible].

[illegible] to Professor McCann by the pupils [illegible] last night, was a decided success [illegible] affair.

[illegible] The steamship John L. Stephens, from San [illegible] had on 125 tons freight.

[illegible] will meet for practice this afternoon and [illegible] evening.

[illegible] of a Grant Club at the Dalles.—[illegible] correspondent at the Dalles sends us the following, from which it will be seen the Union men of Wasco are astir—just as they should be in every part of the State:

Pursuant to call, the Republicans of Dalles and vicinity, met at the Court House on Saturday evening and organized a Grant Club by electing Capt. Lyon, President, Capt. McFarland, Vice President, and L. L. Rowland Secretary. The following are some of the resolutions adopted:

Resolved, That we recognize in our gallant soldiers the exponents of all that has made our civil and religious liberty progressive, built us up as a nation and preserved us from the usurpations of rebellion and false Democracy.

Resolved, That we are the legitimate Democracy of America.

Resolved, That we cordially invite all who have the welfare of our country at heart to earnestly unite with us in fighting out this rebellion on this line, of pseudo Democracy, usurpation and repudiation.

Eloquent speeches were delivered by Capt. Lyon and Hon. S. C. Adams, on the living issues of the contest; much enthusiasm prevailed, and the Grant ball is now successfully in motion in our rebel region.

The Democracy have enlisted the crazy loon Geo. Francis Train—and are very welcome to him.

The shameless and unmanly thing of the Albany Democrat concludes an article on the death of Thad Stevens in the following words, disgraceful alike to the writer and the human species to which for some inscrutable purpose of God the thing is attached:

We might extend this biographical notice indefinitely, but we will desist. The old sinner is dead now. No more will he lead the Rump of Congress—no more will he reconstruct, unless he attempts to do so in the Plutonian regions whither he has gone. No more will he impeach, unless he attempts that game on His Sooty [illegible]. No more will he hold dalliance with his nigger wench nor bathe his fingers in her kinky hair! Malicious, turbulent old sinner, tyrant of the first water, blasphemer and contemner of everything good—violator of all law human and divine—lecherous lump of physical deformity—*farewell!*

If that does not exhibit the human buzzard the English language is helpless to express a simile.

Sound Democratic Teachings.—Brick Pomeroy says: "It devolves on Democratic journals and speakers to warn the people against the Satanic white nigger mobs known as Christian associations and societies, mission clubs, etc. Democrats avoid them as you would the plague." The heathen ruffian and blackguard omitted schools and churches from the list of things for Democrats to avoid—probably by an oversight. They are equally dangerous to Democracy.

When Grant calls the roll in November most of his old comrades will answer "Here."

S. T.—1860—X.—The unprecedented and extraordinary demand for Plantation Bitters is evidently owing to their being prepared with pure St. Croix Rum, Calisaya Bark, &c. Our Druggists all complain that it is almost impossible to keep a supply, and that their orders, owing to the great demand and limited supply, are but tardily executed. Be sure and get the genuine.

The Pearly Gates.—Pure white teeth and a sweet breath, issuing like perfume from the rose through a pair of lovely lips, are, as Shakspeare says, "an excellent thing in woman." To keep the "pearly gates" of the mouth always spotless and the breath always fragrant it is only necessary to use the Sozodont daily.

Spalding's Glue always up to the sticking point.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

The Burial Place

A [illegible] FRAGMENT. BY BRYANT

Erewhile, on England's pleasant shores, our sires
Left not their churchyards unadorned with shades
Or blossoms; and indulgent to the strong
And natural dread of man's last home, the grave,
Its frost and silence—they disposed around,
To soothe the melancholy spirit that dwelt
Too sadly on life's close, the forms and hues
Of vegetable beauty. There the yew,
Green even amid the snows of winter, told
Of immortality, and gracefully
The willow, a perpetual mourner, drooped;
And there the gadding woodbine crept about,
And there the ancient ivy. From the spot
Where the sweet maiden, in her blossoming years
Cut off, was laid with streaming eyes, and hands
That trembled as they placed her there, the rose
Sprung modest, on bowed stalk, and better spoke
Her graces than the proudest monument.
There children set about their playmate's grave
The pansy. On the infant's little bed,
Wet at its planting with maternal tears,
Emblem of early sweetness, early death,
Nestled the lowly primrose. Childless dames,
And maids that would not raise the reddened eye—
Orphans, from whose young lids the light of joy
Fled early,—silent lovers, who had given
All they lived for to the arms of earth,
Came often, o'er the recent graves to strew
Their offerings, rue, and rosemary, and flowers.
The pilgrim bands who passed the sea to keep
Their Sabbaths in the eye of God alone,
In His wide temple of the wilderness,
Brought not these simple customs of the heart
With them. It might be, while they laid their dead
By the vast solemn skirts of the old groves,
And the fresh virgin soil poured forth strange flowers
About their graves; and the familiar shades
Of their own native isle, and wonted blooms,
And herbs were wanting, which the pious hand
Might plant or scatter there, these gentle rites
Passed out of use. Now they are scarcely known,
And rarely in our borders may you meet
The tall larch, sighing in the burial place,
Or willow trailing its low boughs to hide
The gleaming marble. Naked rows of graves
And melancholy ranks of monuments
Are seen instead, where the coarse grass between
Shoots up its dull green spikes, and in the wind
Hisses, and the neglected bramble nigh
Offers its berries to the school boy's hand,
In vain—they grow too near the dead. Yet here,
Nature, rebuking the neglect of man,
Plants often, by the ancient mossy stone,
The briar rose, and on the broken turf
That clothes the fresher grave, the strawberry vine
Sprinkles its swell with blossoms, and lays forth
Her ruddy, pouting fruit

THE TWO MEN WHO WENT OVER THE FALLS.—The Niagara Falls *Gazette*, in its last issue, says of the two men who went over the falls on the night of the 12th instant:

The body of John Peterkin, one of the young men drowned, probably while coming from the Navy Island, on the night of the 12th instant, was found in the whirlpool below Suspension Bridge, on Thursday, and was recovered on Friday evening. The body was recovered by attaching a weight to a line and throwing the same over the body as it came around in the outer circles of the whirlpool. It was only after a good many efforts had been made that this sort of a lasso proved successful, and the body was drawn ashore. It was scarcely recognizable, a scar on one hand was about the only mark by which his friends knew him. Scarcely a shred of clothing was left on his person, and he was badly bruised. He had a sister residing here and a mother in Indiana, Canada.

Seneca Devine, the comrade of Peterkin, has not yet been found.

FACTS THAT SHOULD BE KNOWN.—It will be well, says the *Transcript*, for our readers to remember: 1st, that Government bonds are taxed five per cent on their interest, in the income tax, just the same as all other incomes, from whatever source. 2d, that Chief Justice Marshal, settled the law of the matter, upon the ground that if Government issues were subject to local or State taxation at all—that is, if the right to tax them by a State existed—there could be no limit to its exercise, and the securities of the General Government could be rendered absolutely worthless in any State by its imposing such an amount of tax as would take not only all the interest to be derived from them, but also the principal as well. These facts are important to know, and yet which are not generally understood by either Republicans or Democrats.

ODD FELLOWS.—The *New Age* states that the semi-annual report from subordinate lodges within the jurisdiction of California to the R. W. G. Secretary, to June 30th, 1868, shows that there is now a membership of 16,663, being an increase of 1,539 during the year, with an annual revenue of $239,591 67; that there was paid for relief, burying the dead, etc, $73,936 89—leaving a surplus of $165,650 78 for investment; and that the investments July 1st, 1868, amounted to the sum of $542,811 09. Nine new Lodges, one reinstated, and one Degree Lodge were instituted. The Odd Fellows' Savings Bank at San Francisco, has on deposit $303,228 33, and 541 depositors.

TO ALL WHOM IT MAY CONCERN.

PORTLAND, Ogn, July 28, 1868.

As there are a great many people sick and dying of a disease called Cholera Morbus, I would call attention to the Chinese Doctor Jim. Having eaten green fruit I was taken very bad with the above disease and lay insensible for four hours, when Dr. Jim was called, and in 20 minutes after he gave me the first dose of medicine I was easy and well. I believe that there is no other doctor on the Pacific coast that could have relieved me as quick as Dr Jim did.

BOTHERING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint, and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

H. W. SHIPLEY'S PACIFIC TURBINE WATER WHEEL.

THESE WHEELS EXCEL ANY OTHER WHEEL in use, and are no infringement on the Leffel American Turbine, but excel it in every particular.

CAUTION.

To all whom it may concern.—One A. Myers is publishing and circulating a statement that my wheel is an infringement on the Leffel wheel, and he will "prosecute said infringement to the utmost extent of the Law." His statements are not worth a denial. His game is Bluff, which if he would only take the case to Court, would soon be played out. Don't believe him!

I would be glad to get a case into the United States Court and get a decision. That would forever stop the mouth of Myers and his misrepresentations. The legal opinions of more reputable lawyers than Dodge & Munn and A. Myers have pronounced my patents no infringement on the American Turbine. H. W. SHIPLEY.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Sores and Ulcers of years standing, and Ulcers [illegible] successfully treated.

Horrible Diseases.

[illegible] male and female [illegible] suffering [illegible] absorbed into the system [illegible] emaciated and [illegible] constitutions [illegible] the enjoyment of life. [illegible] Let parents, guardians, friends attend to those who are suffering with any of these horrible [illegible] maladies—see that they are cared for and cured before it be too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted [illegible] to be careful of the many pretended doctors who infest all cities, [illegible] their skill in curing all diseases in a few days [illegible] upon the public by using the names of eminent physicians from European [illegible] strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice or [illegible] indulgence is practised by the youth of [illegible] an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms [illegible] timely and judicious medical measures [illegible] dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or [illegible] uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers [illegible] a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained [illegible] should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country with full and plain directions for use. For Ten Dollars sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who with bogus sworn to certificates dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians, in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that be proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.
REMEMBER TO PUT BOX 252 ON THE LETTER.
Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

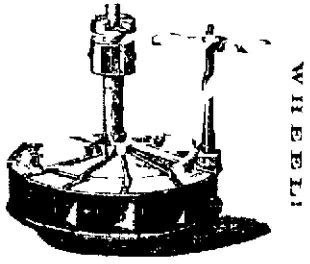
LEFFEL'S AMERICAN DOUBLE TURBINE

WATER WHEEL!



THESE WHEELS, UNEQUALED AND UNRIVALED in the United States or the world, have been fully tested on this coast, many being in use at this date driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c. &c.

CAUTION.

To all whom it may concern: I hereby give notice that the so-called "Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the James Leffel's American Double Turbine Water Wheel, and its manufacture and use is hereby prohibited. Any person or persons making, using, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties interested will take notice, for I shall prosecute said infringements to the utmost extent of the law.

That all may know I mean what I say, and am not playing *bluff*, I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States.

WASHINGTON, D. C., April 17, 1868.

MR. A. MYERS—In accordance with your request we have examined the patents of Shipley on Water Wheels and are clearly of the opinion that they both infringe the Leffel patents. In both of Shipley's Wheels he uses the upper and lower tiers of buckets precisely as Leffel does and in this he clearly infringes. The fact that Shipley has applied another series of buckets in addition to the ones used by Leffel does not relieve him from the consequences of infringement at all. He has no right to use those two tiers of buckets whether alone or with a third or any other number of tiers added. It is a clear infringement. Respectfully yours,
DODGE & MUNN.

I hereby give notice that I will prosecute every infringement on our Patents, whether it is the maker, user, buyer or seller. Every infringement, whether our claims are used in whole or in part, will be prosecuted.
A. MYERS.
